PROFESSIONAL SUMMARY

Results-driven Electrical Engineering student with hands-on industrial experience at Hitachi Astemo. Proven ability to manage technical projects, conduct quality inspections, and work collaboratively in team environments. Strong foundation in power generation, transmission systems, and electrical components. Seeking to leverage technical expertise and problem-solving skills to contribute to innovative engineering solutions at Google.

EDUCATION

Government Engineering College, Sheikhpura

Bachelor of Technology in Electrical Engineering

Sheikhpura, Bihar

Aug 2023 – May 2026

- Specialization: Sustainable Architecture and Electrical Systems
- Relevant Coursework: Power Systems, Circuit Analysis, Control Systems, Digital Electronics, Renewable Energy

Government Polytechnic College Nawada

Diploma in Electrical Engineering

Nawada, Bihar

Jul 2019 – Jun 2022

- Strong foundation in electrical fundamentals, instrumentation, and industrial automation

PROFESSIONAL EXPERIENCE

Diploma Engineer Trainee

Jan 2023 – Nov 2023

Hitachi Astemo

India

- Completed comprehensive 11-month industrial training program gaining practical exposure to automotive component manufacturing and quality assurance processes
- Conducted detailed inspections and testing of electrical components, ensuring compliance with industry standards and quality benchmarks
- Collaborated with cross-functional teams of 15+ engineers to troubleshoot technical issues and optimize production workflows, improving efficiency by identifying process bottlenecks
- Developed proficiency in power generation and transmission systems, gaining hands-on knowledge of electrical components and their interconnections in industrial settings
- Applied preventive maintenance protocols and contributed to reducing equipment downtime through systematic testing and documentation
- Demonstrated strong team management and communication skills while coordinating with senior engineers and technical staff
- Utilized Office 365 suite for technical documentation, project tracking, and collaborative team communications

TECHNICAL SKILLS

Engineering Fundamentals: Circuit Analysis, Power Systems, Electrical Machines, Control Systems, Power Electronics

Technical Capabilities: Electrical Inspection & Testing, Quality Assurance, Preventive Maintenance, System Troubleshooting

Power Systems: Power Generation, Transmission & Distribution, Grid Components, Renewable Energy Integration

Software & Tools: Office 365 (Word, Excel, PowerPoint, Outlook), AutoCAD (basic), MATLAB (coursework)

Professional Skills: Team Management, Cross-functional Collaboration, Technical Documentation, Problem Solving

Industry Knowledge: Automotive Electrical Systems, Manufacturing Processes, Quality Standards, Safety Protocols

CERTIFICATIONS & TRAINING

Implant Training Certificate

Jan 2023 – Nov 2023

Hitachi Astemo

- Successfully completed intensive industrial training program focused on automotive electrical systems
- Acquired hands-on expertise in power generation, transmission systems, and interconnected electrical components
- Demonstrated proficiency in industry-standard testing methodologies and quality control processes

ADDITIONAL INFORMATION

Languages: English (Professional), Hindi (Native)

Interests: Sustainable Energy Solutions, Smart Grid Technology, Automation, Innovation in Electrical Systems

Strengths: Quick Learner, Analytical Thinking, Attention to Detail, Team Player, Adaptable to New Technologies
